

**World Climate Research Programme**  
c/o World Meteorological Organization  
7 bis, avenue de la Paix  
Case postale n° 2300  
CH-1211 Geneva 2 – SWITZERLAND

**1st Meeting of the JSC/ACC Task Group  
Paris, France - June 20, 2007 (9:00 - 17:30)**

*(DRAFT, as of June 7, 2007)*

**Goals:**

- To create a WCRP ACC workplan
- To identify priorities for WCRP ACC-related activities

**Agenda/key issues to be discussed (TBC):**

**9.00 - 9.30 Introduction and Welcome (Patrick Montfray, CNRS)**

*(Teleconference with Greg Flato from 9.30am)*

- 9.30**
1. Key issues for ACC over next 5 to 10 years (e.g. lessons of IPCC AR4)
  2. ACC within WCRP
    - 2.1 Priorities/specific items to identify synergies or benefits from distinguishing between ACC and seasonal prediction.
    - 2.2 Expectations of and relationship with core projects
      - a) Specific challenges (what will they do?)
      - b) Auditing contributions from projects (are they doing it?)
    - 2.3 WGCM activities (What we continue, What we cut, What we need as new ?)
    - 2.4 Role of the support unit in Paris
  3. WCRP/ACC and Relationship with outside bodies (e.g. IGBP, GCOS, IOC, etc.)
  4. Upcoming meetings
    - 4.1 Discussion on emission scenarios (e.g. Netherlands meeting, Sept. 2007)
    - 4.2 Regional climate change and input into UNFCCC Nairobi Work Programme (e.g. Perugia meeting July 2007)
  - 17.30** 5. Conclusions and actions

**Lunch time: 45mn to 1 hour**
